

Dear Colleagues,

As you may know, we recently launched the strategic planning process for Rutgers Biomedical and Health Sciences (RBHS)*. A key part of this process is a survey for all Rutgers faculty members and instructional staff. Our objective is to learn more about your relevant areas of interest and expertise. The results of the survey will be used to identify health-related potential areas of collaboration among faculty and instructional staff university-wide, facilitate collaborative activity, and guide the development of the RBHS strategic plan.

The survey will take 10-20 minutes to complete. It will be accessible through February 17th, but I would appreciate it if you would complete the survey as soon as possible. (Please note that you will need your NetID to open the survey. If you do not know what your NetID is, please use the following link: <https://netid.rutgers.edu/displayNetIdLookupForm.htm>.)

Follow this link to the Survey:

We value your input, appreciate your willingness to participate in our strategic planning process, and take your privacy seriously. All responses will be kept confidential unless you share your contact information with us in the survey.

Should you have any technical questions regarding the survey, please send an email message to Rutgers-Survey_Tech_Support@instlres.rutgers.edu. If you have content related questions, please send an email message to tok10@ca.rutgers.edu.

Your response to this survey will contribute greatly to the development of our strategic plan. Thank you for your time.

Sincerely,

Brian Strom
Chancellor, Rutgers Biomedical & Health Sciences
